

## New Word Work Homework Schedule

\* Rather than focusing on spelling words, we are shifting to recognizing sight words to help students with their reading and writing. While students are working on writing these words for their homework they should also practice saying and recognizing them.

Monday: Flashcards

- Students will write their words on flashcards. They need to write one word per card and write that word on each side of the flashcard. Flashcards will be provided for them.

Tuesday: 2X Each

- Students will write their words two times each on the sheet provided. If they forget the sheet they can write the words on a scrap piece of paper.

Wednesday: Rainbow Writing

- Students will write their words using the rainbow method, just like they did for spelling. A sheet will also be provided for this but if they forget the sheet they can always write the words on a scrap piece of paper.

Thursday: Bonus Sheet

- On Thursday's we might send home a bonus worksheet. This will count as extra points for their word work grade.
